Mathematics Specialist Certificate Program
Primary Grades

The San Diego State University Mathematics Specialist Certificate Program (MSCP) has a two-year program designed specifically for primary grade level elementary school teachers. The focus is on helping teachers acquire a deep understanding of the mathematics taught in the primary grades and the skills needed to effectively teach mathematics. The program emphasizes the use of Cognitively Guided Instruction (CGI) and consists of 12 units of integrated coursework in Mathematics and Teacher Education. Program participants will earn 6 units of graduate-level Teacher Education credit and 6 units of undergraduate-level Mathematics credit.

Stipends of up to \$1,000 are available, and courses are offered at the reduced tuition rate of \$65/unit.

We plan to start a cohort for teachers of primary grades in August 2005. The program will run from August 8, 2005 through Spring 2007, with one week of coursework each summer. The first week of summer coursework is August 8 – 12, 2005, which will be full-day sessions. Classes will meet once a week on Monday evenings during the school year from 4:15 to 7:00 P.M. at Mt. Everest Academy near Balboa and Genesee in the Clairemont Mesa area.

To reserve your place in the program, please complete the form below and fax it to 619-594-0725 or mail it to PDC, 6475 Alvarado Road, Suite 206, San Diego, CA 92120. **Priority will be given to forms received by May 31, 2005.** Applications will be accepted on a space-available basis after May 31st.

For more information about the MSCP or to find out about other courses we offer, please visit <http://pdc.sdsu.edu> or call Dr. Jane Gawronski at (619) 594-3858.

Mathematics Specialist Certificate Class Reservation Form

Please reserve my place in the Primary Grades Cohort that starts August 8, 2005.

Priority Deadline: May 31, 2005

Applications will be accepted on a space-available basis after May 31st.
